

# Create IBM IoT Watson service

Date	14 November 2022
Team ID	PNT2022TMID24952
Project Name	Industry-specific intelligent fire management system

The screenshot shows the IBM Cloud interface for the 'Internet of Things Platform-16' service. The page is titled 'Resource list / Internet of Things Platform-16' and includes a status indicator 'Active' and an 'Add tags' link. A sidebar on the left contains links for 'Manage', 'Plan', and 'Connections'. The main content area features a large graphic of a central square with four circular nodes connected by lines, representing the IoT platform. Below this graphic, the text 'Let's get started with IBM Watson IoT Platform' is displayed, followed by a description: 'Securely connect, control, and manage devices. Quickly build IoT applications that analyze data from the physical world.' There are two buttons: 'Launch' and 'Docs'. Further down, a section titled 'Ready for the next level?' introduces the 'IBM Watson IoT Platform Journey' with three stages: 'Lite', 'Non-Production', and 'Production'. Each stage has a corresponding icon and a brief description of the service plan.

The screenshot shows the IBM Watson IoT Platform landing page. The page has a dark blue background with white text and graphics. The main heading is 'Assets', flanked by the phrases 'Collect data from' and 'and make value from it'. Below the heading, there are several icons representing different types of assets: a cloud, a factory, a truck, a plane, a ship, and a person. A 'Learn More' link is visible at the bottom center. The top right corner features a 'Sign in' button.
